Evidencing the impact of the Primary PE and Sports Premium  
2023-2024

## What is the PE and Sports Premium Funding?

The Government has provided additional funding for PE/Sports since 2013. This is joint funding provided by the Departments for education, Health and Culture, Media and Sport and will see money going directly to primary school head teachers to spend on improving the quality of sport and PE for all their children. Schools must use the funding to make additional and sustainable improvements to the quality of Physical Education, School Sport and Physical Activity (PESSPA). Schools have to spend the sport funding on improving provision of PE and sport but we have the freedom to choose how they do this.

We use the Primary PE and Sport premium to:

- Develop or add to the Physical Education, School Sport and Physical Activity performed by children
- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

### Purpose of funding

The vision for the Primary PE and Sport Premium: **ALL** pupils leaving primary school **physically literate** and with the **knowledge, skills and motivation** necessary to equip them for a **healthy, active lifestyle** and **lifelong participation** in physical activity and sport

The funding has been provided to ensure impact against the following **OBJECTIVE**: To achieve self-sustaining improvement in the quality of PE and sport in primary schools. It is important to emphasise that the focus of spending must lead to long lasting impact against the vision that will live on well beyond the Primary PE and Sport Premium funding.

### Success Criteria

It is expected that schools will see an improvement against the following 5 key indicators:

- Key Indicator 1: the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- Key Indicator 2: the profile of PE and sport is raised across the school as a tool for whole-school improvement
- Key Indicator 3: increased confidence, knowledge and skills of all staff in teaching PE and sport
- Key Indicator 4: broader experience of a range of sports and activities offered to all pupils
- Key Indicator 5: increased participation in competitive sport

### Key achievements to date:

- Schemes of work and assessments for PE are now in place across the school in line with the new PE curriculum. The new schemes will continue to be used in future years with a focus on key skills as they move up the school. However they will need monitoring, revisit and review.
- The confidence, knowledge and skills of the staff members has been significantly improved through specialist coaching giving them the confidence to deliver the curriculum across the key stages in future years. This is a continuing cycle as new staff members are appointed/additional sports/activities introduced.
- Increased confidence from staff members has significantly improved the number of after-school clubs made available to the children and has increased the participation from children.
- Through activities planned throughout the year including enrichment days & award ceremonies promote the profile of health and meeting recommended daily activity levels has been raised.
- Developments within additional extra-curricular activities on offer to pupils has led to increased participation, fitness levels and enjoyment for pupils. This has been particularly apparent for previously non-active pupils and a big focus has been on providing the opportunity for pupils to try alternative activities and sports.
- Attendance of whole city sporting events (dance competition at Victoria Hall) to create lasting memories and experiences through the extra-curricular PE events has been improved.
- Pupil sports leaders continue to be trained to lead and organise events in school, pupil confidence and ability to lead events and activities extends offer for others (ongoing cycle).
- Activities pupils have enjoyed and found they want to continue with, in or out of school, has led to sustainable attitude change and increased present and future participation.
- Forest school developed within our school curriculum to increase children's willingness to engage outdoors through increased confidence
- Achieved the School Games Mark – Bronze.
- Improved the facilities for children to exercise outdoors safely by installing a safe, all-weather surface/track to encourage children to participate actively. The installation of the all-weather track has also raised the profile of athletics within the school and has enabled us to organize Fun Run's for the local community and host a Cross – Country Competition for local schools.
- Improved the bank of resources in order to provide the children with opportunities to learn new sports.
- Improved our indoor gym equipment and resources to allow the children to progress to the next level/phase of gymnastics. We have also ensured that staff have had the correct CPD alongside the introduction to the new gymnastic equipment to ensure safety and confidence when using it with the children.
- Improved outdoor facilities for children on playground: playground markings; bike/scooter storage

### Potential Future Developments (2024/2025 and beyond)

- Further development of outdoor area – either main playground or field dependent on 2023/2024 spending
